					Disclosure of major security types (equity, debt issued by US government agencies, corporate, foreign governments). For securities classified as available-for-sale, disclosure often includes by each major security type the aggregate fair value and total gains or losses in other comprehensive income. For securities classified as held-to-maturity, the following is often included by each major security type: aggregate fair value, gross unrecognized holding gains and losses, net carrying amount, and gross gains and losses in accumulated other comprehensive income. For investments in debt securities disclose information about the contractual maturities and the fair value and net carrying amount of debt securities by the following time periods: within 1 year, 1-5 years, 5-10 years, and after 10 years. For each period results of operations are presented, the following is often disclosed: 1) the proceeds from sales of available-for-sale securities, 2) gross realized gains and losses, 3) the basis on which the cost of a security sold was determined, 4) gross gains and losses included in earnings from transfers of securities from the available-for-sale category into the trading category, 5) the amount of net unrealized holding gain or loss on available-for-sale securities in accumulated comprehensive income and amount reclassified out, 6) the portion of trading gains and losses in which trading securities are still held. For sales of or transfers from securities classified as held-to-maturity, the following is often included: net carrying amount of the security, net gain or loss in accumulated other comprehensive income that hedged forecasted acquisitions of these securities, realized or unrealized gain or loss at the date of sale or transfer, and the circumstances leading to the decision to sell or transfer the security.

<p>US GAAP Disclosures of inventory include the basis of stating inventory, the method of determining inventory cost, if inventories are stated above cost, the accrued net losses on firm purchase commitments for inventory and losses resulting from valuing inventory at the lower of cost or market. Also disclosed are the major classes of inventories (such as finished goods, inventoried costs relating to long-term contracts or programs, work in process, raw materials and supplies, LIFO valuation allowance). For LIFO inventory, disclose the amount and basis for determining the excess of replacement or current cost over stated LIFO value (for LIFO inventory), and the effect of a LIFO quantities liquidation that impacts net income. For companies that have not fully adopted LIFO, include the extent to which LIFO is used. For SEC registrants, if a LIFO company discloses FIFO-based supplemental income in a footnote, disclose: (a) that LIFO results in a better matching of cost and revenues, (b) why supplemental income disclosures are provided, and (c) important assumptions in its calculation (e.g. assumed tax rates).</p>

<p>Leases in financial statements of lessees may be operating or capital leases. Includes a general description of the lessees leasing arrangements, and the nature and extent of leases with related parties. Disclose a description of the lessee's leasing arrangement, including the basis for determining contingent rentals, terms of renewal or purchase options and escalation clauses, restrictions imposed by lease agreements, obligations to refinancing of the lessor's debt, significant penalties, and terms of any significant guarantees (e.g. of residual value). For capital leases, disclosure often includes: 1) the gross amount of assets recorded under capital leases by major class and total accumulated depreciation, 2) liabilities related to assets recorded under capital leases, 3) future minimum lease payments for the next five fiscal years, 4) future minimum lease payments representing executory costs and imputed interest to reduce to present value, 5) contingent rentals incurred, 6) amortization of capital lease asset (unless noted it is included in depreciation expense), and 7) future minimum payments received under noncancelable subleases. For operating leases, disclose 1) rental expense, 2) future minimum lease payments for the next five fiscal years, and 3) future minimum payments received under noncancelable subleases.</p>

					Information about pensions and other postretirement benefit. Disclosure requirements for defined benefit plans are divided into three sections: public entity disclosures, non-public entity disclosures, and disclosures applicable to all entities. Public entity disclosures for defined benefit pension and postretirement benefit plans often include: 1) a reconciliation of beginning and ending balances of the benefit obligation for all balance sheets presented, 2) the effects on benefit obligation during the period attributable to certain elements (e.g. service and interest costs, contributions by plan participants, actuarial gains and losses, foreign currency exchange rate changes, and benefits paid), 3) a reconciliation of beginning and ending balances of the fair value of plan assets for all balance sheets presented, 4) the effects on pension assets during the period attributable to certain elements (e.g. actual return on plan assets, foreign currency exchange rates change, contributions by employer and participants, and benefits paid), 5) net periodic benefit cost recognized as expense by components (e.g. service and interest costs, expected return of plan assets, amortization of unrecognized transition obligation or asset, recognized gain or loss, prior service cost, gain or loss due to settlement or curtailment), 6) the funded status of the plan, 7) amounts recognized and not recognized (e.g. prior service cost, gain or loss) in the balance sheet, and 8) the effect of a one-percentage-point increase and decrease in the assumed health care cost trend rate(s). Nonpublic entity disclosures for defined benefit pension and postretirement benefit plans often includes: the benefit obligation, the fair value of plan assets, the funded status of the plan, employer contributions, participant contributions, benefits paid, net periodic benefit expense and the amounts recognized in the balance sheet (e.g. net pension asset or other postretirement benefit prepaid assets or accrued liabilities, intangible asset recognized (pension plans only), and the amount of accumulated other comprehensive income recognized (pension plans only) and effect of significant nonroutine events, such as amendments, combinations, divestitures, curtailments, and settlements. Disclosures applicable to all entities for benefit pension and postretirement benefit plans include: 1) other comprehensive income from a change in the minimum pension liability recognized, 2) the weighted-average assumed discount rate, the weighted-average rate of compensation increase, and the weighted-average expected long-term rate of return on plan assets, 3) the assumed health care cost trend rate(s) for the next year used to measure the expected cost of benefits and its pattern of change, and 4) the amounts and types of securities of the employer and related parties included in plan assets. For Defined Contribution Plans, disclosures include: the nature and effect of significant matters affecting comparability of information for all periods and the amount of cost recognized as expense during the period. For Multiemployer Plans, additional disclosures include: if it is either probably or reasonably possible that 1) an employer would withdraw from a multiemployer plan resulting in an obligation, and 2) an employer's contribution to a multiemployer plan would be increased to maintain a level of benefit coverage (OPEB only).

					Companies often disclose the reportable segments of their business and how they determined the segments (e.g. by products and services, geography, regulatory environments, etc). For each segment, specific amounts of items are often reported, such as revenue by product/service and external customers, profit or loss, total assets, interest revenue and expense, depreciation and amortization expense, income tax expense, and expenditures on long lived assets. Explanations are often included on differences between each segment, such as 1) certain measurements of segment profit or loss (e.g. income before taxes, extraordinary items, discontinued operations, change in accounting principle) and assets and 2) changes in methods and measurements from prior year, between segment and consolidated assets. Reconciliation is also provided between the total of the segment items disclosed (e.g. revenue, assets, etc) to the consolidated entity. If not disclosed as part of operating segment information, disclose: (a) total revenues from external customers for each product and service, (b) geographic information about revenues from external customers and long-lived assets, and if this is impracticable, that fact shall be disclosed. If revenues from a single external customer are 10 percent or more of total revenues, disclose the total amount of revenues from each such customer and the identity of the segment or segments reporting the revenues.

496	0		String	usfr-namda	<p>Qualitative Disclosures (usfr-namda:QuantitativeQualitativeDisclosuresAboutMarketRiskQualitativeDisclosures)</p> <p>Discussion of qualitative information about market sensitive instruments include: (a) the registrant's primary risk exposures, (b) how the registrant's primary risk exposures are managed, including the objectives, general strategies, and instruments used to manage those exposures, (c) the particular markets that present the primary risk of loss to the registrant for each category, and (d) changes in either the primary market risk exposures or how those exposures are managed, when compared to what was in effect during the most recently completed fiscal year and what is known or expected to be in effect in future reporting periods. Each disclosure should be made by risk category (e.g. interest rate, foreign currency and commodity price). If a market risk is immaterial, include discussion of that fact and explain why the risk was considered immaterial if it is not intuitively obvious.</p>	SK 305 b 1 iii; SK 305 b 1 iii; SK 305 b 1 ii; SK 305 b 1 ii
