For each segment, specific amounts of items are often reported, such as revenue by product/service and external customers, profit or loss, total assets, interest revenue and expense, depreciation and amortization expense, income tax expense, and expenditures on long lived assets. Explanations are often included on differences between each segment, such as 1) certain measurements of segment profit or loss (e.g. income before taxes, extraordinary items, discontinued operations, change in accounting principle) and assets and 2) changes in methods and measurements from prior year, between segment and consolidated assets. Reconciliation is also provided between the total of the segment items disclosed (e.g. revenue, assets, etc) to the consolidated entity. If not disclosed as part of operating segment information, disclose: (a) total revenues from external customers for each product and service, (b) geographic information about revenues from external customers and long-lived assets, and if this is impracticable, that fact shall be disclosed. If revenues from a single external customer are 10 percent or more of total revenues, disclose the total amount of revenues from each such customer and the identity of the segment or segments reporting the revenues.</p>	<p>SEC Regulation 14A 14a-3 b 7</p> <p>http://www.sec.gov/divisions/corpfin/forms/14a.htm 2004-08-01 (Standard); SEC Regulation S-K (SK) 101 b</p> <p>http://www.sec.gov/divisions/corpfin/forms/regsk.htm#des 2004-08-01 (Standard); SEC Regulation S-K (SK) 101 c 1 i</p> <p>http://www.sec.gov/divisions/corpfin/forms/regsk.htm#des 2004-08-01 (Standard); SEC Regulation S-K (SK) 101 d</p> <p>http://www.sec.gov/divisions/corpfin/forms/regsk.htm#des 2004-08-01 (Standard)</p>

Disclosure requirements for defined benefit plans are divided into three sections: public entity disclosures, non-public entity disclosures, and disclosures applicable to all entities. Public entity disclosures for defined benefit pension and postretirement benefit plans often include: 1) a reconciliation of beginning and ending balances of the benefit obligation for all balance sheets presented, 2) the effects on benefit obligation during the period attributable to certain elements (e.g. service and interest costs, contributions by plan participants, actuarial gains and losses, foreign currency exchange rate changes, and benefits paid, 3) a reconciliation of beginning and ending balances of the fair value of plan assets for all balance sheets presented, 4) the effects on pension assets during the period attributable to certain elements (e.g. actual return on plan assets, foreign currency exchange rates change, contributions by employer and participants, and benefits paid), 5) net periodic benefit cost recognized as expense by components (e.g. service and interest costs, expected return of plan assets, amortization of unrecognized transition obligation or asset, recognized gain or loss, prior service cost, gain or loss due to settlement or curtailment), 6) the funded status of the plan, 7) amounts recognized and not recognized (e.g. prior service cost, gain or loss) in the balance sheet, and 8) the effect of a one-percentage-point increase and decrease in the assumed health care cost trend rate(s). Nonpublic entity disclosures for defined benefit pension and postretirement benefit plans often include: the benefit obligation, the fair value of plan assets, the funded status of the plan, employer contributions, participant contributions, benefits paid, net periodic benefit expense and the amounts recognized in the balance sheet (e.g. net pension asset or other postretirement benefit prepaid assets or accrued liabilities, intangible asset recognized (pension plans only), and the amount of accumulated other comprehensive income recognized (pension plans only) and effect of significant nonroutine events, such as amendments, combinations, divestitures, curtailments, and settlements. Disclosures applicable to all entities for benefit pension and postretirement benefit plans include: 1) other comprehensive income from a change in the minimum pension liability recognized, 2) the weighted-average assumed discount rate, the weighted-average rate of compensation increase, and the weighted-average expected long-term rate of return on plan assets, 3) the assumed health care cost trend rate(s) for the next year used to measure the expected cost of benefits and its pattern of change, and 4) the amounts and types of securities of the employer and related parties included in plan assets. For Defined Contribution Plans, disclosures include: the nature and effect of significant matters affecting comparability of information for all periods and the amount of cost recognized as expense during the period. For Multiemployer Plans, additional disclosures include: if it is either probably or reasonably possible that 1) an employer would withdraw from a multiemployer plan resulting in an obligation, and 2) an employer's contribution to a multiemployer plan would be increased to maintain a level of benefit coverage (OPEB only).</p>	<p>FASB Current Text (CT) P16 150 (Standard); FASB Current Text (CT) P16 153 (Standard); FASB Current Text (CT) P16 162 (Standard); FASB Current Text (CT) P16 166 (Standard); FASB Current Text (CT) P40 169 (Standard); FASB Current Text (CT) P40 172 (Standard); FASB Current Text (CT) P40 173 (Standard); FASB Current Text (CT) P40 178 (Standard); FASB Current Text (CT) P40 198 (Standard); FASB Statement of Financial Accounting Standard (FAS) 132 http://www.fasb.org/pdf/fas132.pdf 2004-08-01 (Standard); FASB Statement of Financial Accounting Standard (FAS) 132 9 http://www.fasb.org/pdf/fas132.pdf 2004-08-01 (Standard)</p>
