

## XBRL Nederland

Bas Groenveld

## Who are we?

- XBRL Nederland is a Foundation (“Stichting”)
  - Founded in 2002; one of the first national jurisdictions
  - Contributed to inception of government programs  
Netherlands Taxonomy Project (NTP) and  
Standard Business Reporting (SBR)
  - Close cooperation with XBRL International (XII)
-

## Board 2022

Jacques Urlus (NBA) chairman | Enrico Evink (EY) treasurer  
Paul Hulst (DNB) | Paul Staal (ING) | Bas Groenveld (Aguilonius)

---

## Relation between XBRL NL and SBR

In most countries, the national XBRL jurisdiction is the only organization promoting XBRL

In the Netherlands, SBR is a public-private partnership using XBRL as a core standard

Still, XBRL NL has a relevant position promoting XBRL within SBR, but also outside of SBR

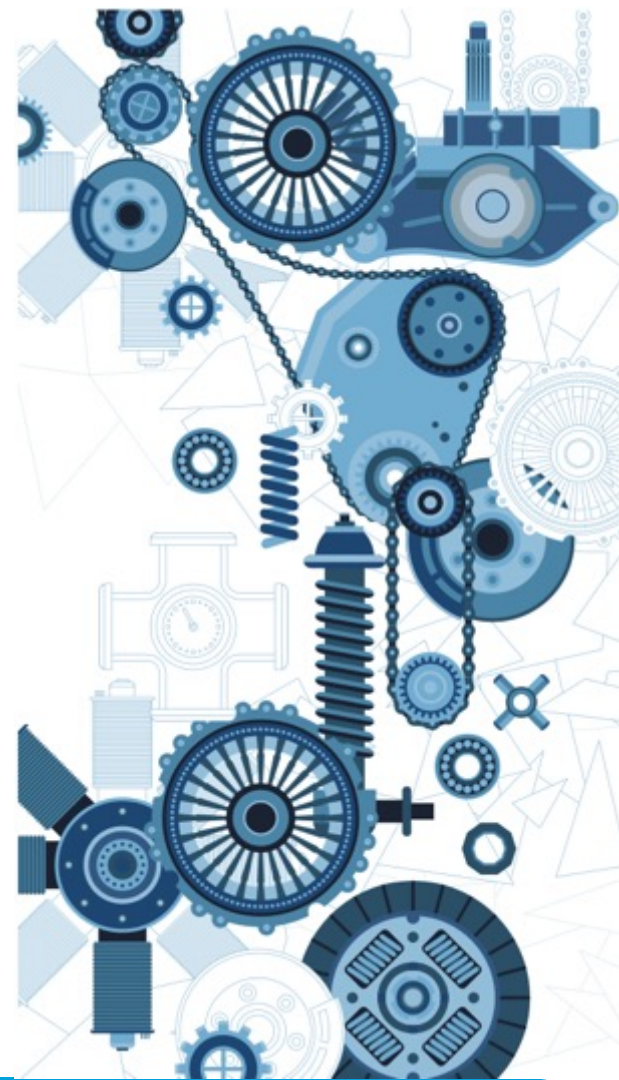

## Strategy

- XBRL International develops and maintains the XBRL standard globally and liaises with global institutions, such as EU, IASB, W3C and many more
  - XBRL NL promotes the adoption of XBRL within the Netherlands by
    - providing information
    - hosting events
    - connecting organizations, experts and projects
    - aligning national requirements with international standardization processes
-

## Activities

- Webinars on
  - Upcoming regulation (e.g. ESEF, ESG)
  - Upcoming changes in XBRL-related standards
  - Application of XBRL within information supply chains
- XBRL technical training
